sitting there laughing and trying to
confuse him."

Herrington denied the charge and
Chairman Foster restored peace by
suggesting: "Maybe Mr. Herrington is
laughing at Mr. Jake."

The witness told of being told that
he would be killed by strikers if he
left the mine and came to Trinidad.

"Did the superintendent tell you
that you had to work out what you
owed the company for board and for
transportation from Pittsburgh?"
asked Costigan.

The question was translated, and
the witness replied that he had been
told that he must work out a debt of
\$27.

Judge J. G. Narhurgh cross examined
for the operators.

Under a flood of questions the wit-
ness stuck to his story that the al-
leged shooting of a miner by a militiaman
was seen or heard by another
miner named Mike Smith. The al-
leged killing, he said, took place the
latter part of January.

"Did Smith tell you he saw the man
killed?"

Smith told me he heard the shot.
The witness explained that he did
not know the man who was killed, or
whether or not he was one of the
party who came from Pittsburgh.

During the luncheon recess the
hearing was removed to the West
theater, which had been offered for
the use of the committee. The room
at the city hall had been found totally
inadequate to accommodate the
crowd. Tables, chairs and supplies
were hastily transferred and when
the session was resumed at 2 o'clock
the committee, attorneys and news-
paper men occupied the theater stage,
with the spectators in the body of
the house.

**TWO NATIONAL GUARD
COMPANIES DISBANDED**

Denver, Feb. 16.—Companies A
and L, First regiment, Colorado na-
tional guard, arrived in Denver to-
day from the southern Colorado coal
fields and were disbanded. The re-
turn of the two companies, composed
of about 70 militiamen, was the
first step in General Chase's an-
nounced plan to withdraw the militia
from the field, gradually, until
only cavalry is left.

**STRIKERS CLOSE CASE AT
MICHIGAN HEARING**

Hancock, Mich., Feb. 16.—The last
of the strikers witnesses to be heard
on mine conditions were before
the congressional investigators today.
Four testified at the morning session.

Chairman E. T. Taylor of Colorado
said that it was probable that Repre-
sentative Baileys of Missouri would be
unable to join the committee, and that
Representative J. M. Taylor of
Arkansas, theory member of the
mines committee now in Washington,
would come in his place.

The announcement was made by
counsel for the miners at the open-
ing of the congressional inquiry into
the copper strike here today that
they expected to conclude the pre-
sentation of witnesses on mine condi-
tions.

tions during the day unless the committee indicated that it desires to hear more.

After a short conference Chairman Taylor announced that it was the sentiment of the committee that without passing on the merits of the testimony offered by the fifty witnesses already heard, that these witnesses seem about as good as twenty-five or fifty men along the same line.

Mr. Taylor said that one of the committee had suggested that when the committee visited a mine he hoped it would be before the operators began the presentation of their side, and that they would be accompanied by one or two of the striking miners.

"We want to see the things they want us to see," added Mr. Taylor. "We don't want to make an ex parte inspection."

Counsel indicated that the operators would not be willing to permit a miner selected by the federation to accompany the committee into their mines, whereupon Chairman Taylor said he hoped the two sides would be able to agree on the men.

Joe Butula testified that he had paid \$26 to a woman who kept a candy store in Calumet to get a job for him in the Calumet and Hecla mine twelve years ago. He said the woman had influence with a mine captain at that time known as several other men who had obtained jobs in the mine through her.

"Did you know that this mine captain was dismissed for this practice?" asked Mr. Petermann.

Witness said he knew the captain well, wherein O. N. Hilton, one of the strikers' counsel, asked how long he worked in the mine before the captain left. Butula said it was about thirteen years.

**First Machine So Satisfactory
Well Known Wholesale Gro-
cer Gets Another Next Day.**

The Buick sales force here are re-
eling pretty chesty over the latest
achievement in selling R. E. Putney
two machines, one one day and an-
other the next.

Mr. Putney ordered a Buick 36
which arrived yesterday. He drove
car yesterday, without even having it
tuned up, and was so pleased that
after he read about the successful
gasoline test of the Buick 25 he im-
mediately came down town this
morning and ordered a 24 roadster.
This gives Mr. Putney two classic cars
sufficient to furnish him any variety
of auto service he desires.

The Buick people received a car-
load of three machines Saturday—all
roadsters—and report only one left
today. Which is going some.

President Commutes Sentence.

Washington, Feb. 16.—President Wilson has commuted to expire immediately the life sentences of George Barclay and James Brummett, convicted in 1901 of the murder of J. I. Poole on the Omega reservation in the Indian territory. Barclay and Brummett were sentenced to be hanged but commuted to life imprisonment by President Roosevelt. They had served about ten years in Leavenworth penitentiary. President Wilson believed the killing of Poole was not premeditated.

The announcement was made that
Eugene Packard had been transferred
from the Chicago Federal to the
Kansas City team.

Demands of Ed Sweeney are so
strong that the Federals have nearly
despaired of landing the New York
catcher. Negotiations are still in
progress, however.

The transfer of the Toronto fran-
chise to Brooklyn included the trans-
fer of the services of William Brad-
ley, who, however, will not be man-
aged.
